

Introduction From The Organizing Committee

**Mark Bourassa,
Paul Chang, Naoto Ebuchi,
Julia Figa Saldana, Ernesto Rodriguez,
Raj Kumar Sharma, Haruhisa Shimoda,
Qingtao Song, and Ad Stoffelen**

The EUMETSAT
Network of
Satellite Application
Facilities

Next Meeting

- We are planning on holding the next meeting in Japan
 - Likely at SCRIPPS, San Deigo, California
 - Alternative: Portland at 2015 location
 - Hosted by
 - Prof. Sarah Gille

The Florida State University

IOVWST 2016
2

Meeting Objectives

- To share science and operational results
- To build a community of scientists working on global surface vector wind fields over the ocean to further scientific cooperation and practical application of ocean winds to societal problems.
 - Increasing collaboration
 - Bring great minds together to identify key (solvable) issues,
 - And formulate plans to solve those issues

TERMS OF REFERENCE

➤ More Specific Goals:

- To continuously examine and improve the range and quality of ocean vector wind products available to the community.
- To assure that scientific input is provided to develop a high quality climate record for winds over the ocean.
 - Intercalibration will result in multi-decadal records
- To stimulate innovation of applications using ocean vector winds for scientific and societal problems.
 - Good examples at IOVWST meetings
- To provide scientific guidance for the development of the CEOS Ocean Vector Winds Satellite Constellation and other international groups
 - Participate in CEOS (more from Paul Chang) and GCOS
 - Contribute to preparation for Decadal Survey
- To improve the user community's knowledge of strengths and weaknesses of ocean vector wind products for their applications
 - Splinter group on OVW products is being formed

This Meeting

- Shorter talks – same as last meeting
 - Update talks have been reduced to 5 minutes + questions
 - Poster presenter have one slide advertisements before the break
 - Session chairs have been asked to encourage speakers to finish the talks in a timely fashion
 - Leaving time for discussions
 - And ideally develop some needed solutions
 - Several of my students will help load talks
- Discussion should focus on how we can move forward on issues
 - Build collaborations to remove barriers to progress
- The organizing committee welcomes feedback on these arrangements
- Optional dinner Wednesday evening thanks to non-US sponsors

Talks will be posted on-line

- The default assumption is that you are willing to have your talk posted on line
- Exception: there is a JPL coauthor)
 - Then it will not be posted until I am told that JPL has approved the content for posting
- I can also post posters, but I need to be sent the poster (pdf format please) since I don't already have it.
